Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

Applicant's arguments with respect to claims 1, 4-6 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

1. Claims 1, 4-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Yoshida et al. (US 5982414).

Claim 1, Yoshida discloses a virtual sound system (see Fig. 1 and 2) comprising a network-based program (bi-directional signal distribution system; i.e. CATV or Internet ; Col. 1, lines 56-Col. 2, lines 15) for generating repetitive sleep including sound having a frequency between 3 and 30Hz at a user location (Col. 5, lines 18-30; Col. 7, lines 35-Col. 8, lines 60);

An access network for accessing the network-based program at the user location for generating the repetitive sleep inducing sound (Col. 9, lines 28-38).

Yoshida discloses the program could be link or delivered from Internet (Col. 9, lines 35-38) but does not clearly disclose the web/internet link is selected from the

Art Unit: 2623

group consisting of sleep related research, sleep products and a sleep discussion chat room.

Official Notice is taken that the use of the web links to link to corresponding web sites for retrieving additional research information or to a Chat room/forum or product information of a particular topic of interest, i.e., sleep disorder issues, is well known in the art. Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to modify Yoshida to have URLs link to related Web sites for the benefit of providing users with additional information related to sleep disorder issues.

Claim 4, Yoshida further discloses a sound controller selected from the group consisting of volume control and sound play duration (see Fig. 4 with volume control and Fig. 5 for time duration of usage).

Claim 5, Yoshida further discloses a visual stream changing in concert with the sound (Col. 7, lines 35-50 and Col. 7, lines 59-Col. 8, lines 40).

Claim 6, Yoshida further discloses an alarm clock routine (Col. 7, lines 19-22; Col. 8, lines 53-60).

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
